DETAILED ACTION

1. The restriction of the current claims are proper, since none of the present process claims were prosecuted in the application from which applicant is claiming a 371 benefit.

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 50-59, drawn to a process of making an oxo-alcohol, classified in class 568, subclass 700.
 - II. Claims 60-69, drawn to a process of making alkylbenzenes, classified in class 585, subclass 470***
 - III. Claims 70-77, drawn to a method of making a drilling fluid, classified in class 507, subclass 103.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I, II and III are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions In the present case inventions I, II and III have different modes of operation, since they use different feeds and different means of processing to obtain the final products.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

5. Because these inventions are distinct for the reasons given above and the search required for Group I, II or III is not required for any of the other Groups, restriction for examination purposes as indicated is proper.

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
